

RIGOCAL Engineering Limited Quality Policy

RIGOCAL Engineering Limited is a civil engineering and surveying company offering structural analysis, dimensional control and 3D mapping, based in Aberdeen, the United Kingdom, in the oil & gas and renewable energy industry.

Mission Statement

We offer the most comprehensive range of professional, high quality civil engineering services in Europe and East Asia.

Vision

To be the company of choice for clients requiring innovative solutions in the oil & gas and renewable energy industry.

Our Quality Policy

To achieve this vision, RIGOCAL Engineering is committed to our Quality Policy:

- RIGOCAL will accurately grasp the needs of the customers and then, in order to meet these needs, we will work to provide services that are safe, efficient, and cost effective.
- RIGOCAL will set strategic and business plans that are customer focus.
- RIGOCAL will be certain to carry out the service realisation process based on the quality management system, i.e. ISO 9001:2015, including our supply chains. Also we will always maintain the best quality management system with continuous assessments and evaluations that lead to improvements.
- RIGOCAL will be committed to the prevention of pollution and compliance to environmental requirements while maintaining a safe and healthy workplace.

This policy will be reviewed regularly.
